Do I need to sign up for Bill Pay separately?

In order to access our Bill Payment service you will be required to enroll once you have logged into the new Internet Banking site. You will be required to use the same User ID and Password that you chose for Internet Banking.

Will I always have to login twice in order to access my accounts and Bill Pay?

No, once you have logged in successfully to Internet Banking and Bill Pay the next time you login you only be required to login once.

What about my existing bill payments?

Unfortunately you will be required to reenter your Payee information into WNB Bill Payment. Although this is inconvenient we feel that once the information has been entered that you will see a significant difference in the payment processing to your payees. Our new bill pay service will offer more electronic processing which will be more efficient for our customers.

What are “access credentials”? Do I have to change my access credentials?

Your Access Credentials are the information that you use to log in to Internet Banking. We recommend converting your Access Credentials to a User ID and Password because you can select the ID and Password that work for you. However, if you prefer, you can continue to use your Social Security Number as your User ID to log in to Internet Banking.

Will I still have access to the same accounts ?

You will continue to have access to the same accounts that you have access to via Internet Banking today.

What if I have questions ?

If you have any questions, or need help with the new Internet Banking website, please call (817) 732-1200 or your local branch and a Woodhaven banker can assist you.
